

Put
**LOVE THY NEIGHBOR
ON THE MONEY!**

Some Liberals feel the United States should seriously consider replacing "In God We Trust" on our money, with "*Love Thy Neighbor.*"

Many reasonable people object to IGWT because of First Amendment considerations. No Liberal wishes to offend the religious sensibility of anyone, but no group has ever expressed disapproval of LTN. It would pass the muster of the First Amendment because it doesn't endorse a religion.

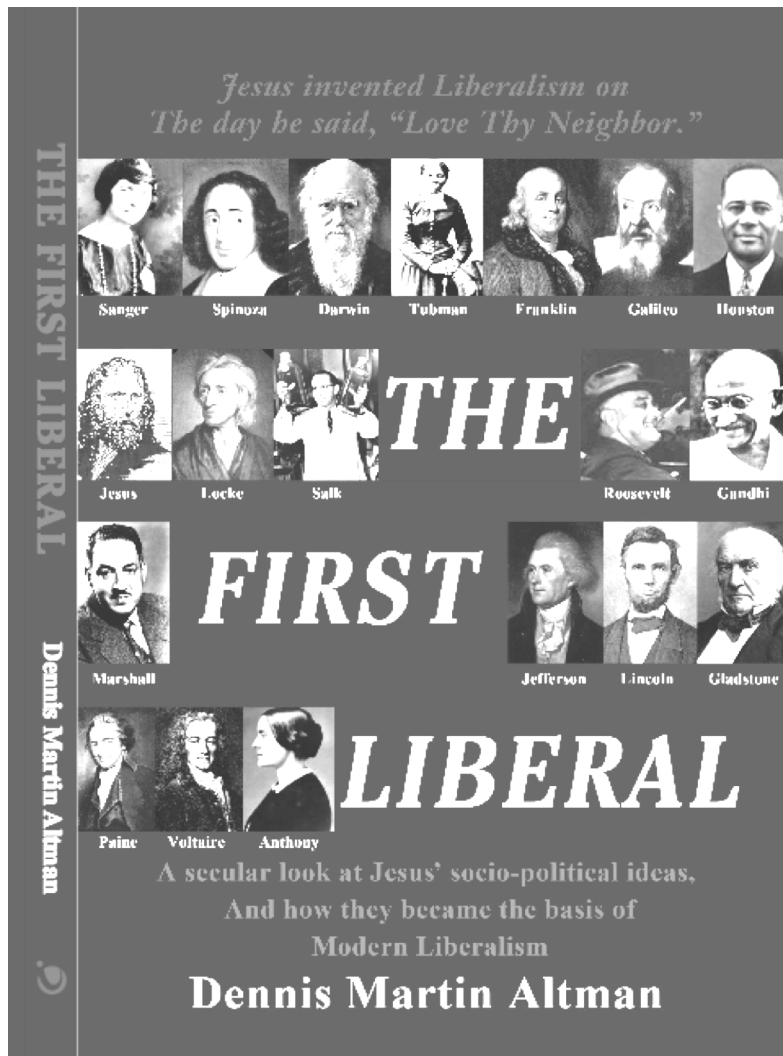

It wouldn't offend Shintos, Lutherans, Catholics, Evangelicals, Mormons, Jews, Zoroastrians, Muslims, or atheists. In the history of humanity, no one ever uttered a more benevolent and profound thought in fewer syllables.

If we all lived by LTN, this world would be a far kinder and healthier place, and people would have kinder thoughts about the United States of America.

"THE FIRST LIBERAL"

(It's not about religion - it's about politics.)

JESUS INVENTED LIBERALISM THE DAY HE SAID, "LOVE THY NEIGHBOR"

In three words, he created the Liberal code. *LTN* is the most meaningful difference between Liberals and Conservatives. Listen to any Liberal politician and you'll hear about education, health care, consumer protection, equal opportunity and a cleaner environment. Listen to Conservatives, and you'll hear about business, tax cuts for the rich, making war and fear of terrorists.

This is a non-religious book.
